NATIONAL UNITED FRONT
(Phrar - Rum - Chek)

D - Standpoint: Situation of the country

A) Requests:

- 1) We want victory for our side
- 2) How to hold firm our new job

B) Cause of the coup d'etat

1. - The plan for a coup d'etat has been made for a long time. Lon Nol and Sirik Matak were living very closely to Samdech-Ouv [Sihanouk], but they plotted to overthrow him. This plot had been made for a long time with the aim at seizing power and consolidating their own party. Specially in military matters, they wanted to take over the whole national apparatus, oppress the patriotic elements, destroy the national finance and other utilities which the nation has created and at the same time sabotage all the developing institutions.

2. - Because the American imperialists suffer heavy defeat in Viet-Nam and Laos, they want to transform this war into a civil war.

3. - Because the liberation struggle movement is getting stronger, the American imperialists have to use every possible means to destroy all anti-American movements which are developing to the highest point, and they are maneuvering to occupy Kampuchea with new methods.

C) The defeats of the enemy

1. - The American imperialists want to intensify the war because they think that by so doing they will score final victory, but on the contrary they will be completely defeated.

2. - The American imperialists are now defeated in Viet-Nam. For this reason, they have to resort to a coup d'etat in Kampuchea. But this coup d'etat has been staged in so fast a way, so that only eight days after it, the Khmer people everywhere have risen up to oppose the government which they supported, and as a result, no one supports the coup d'etat at all, and now Lon Nol and Sirik Matak have become isolated from the people and the world.

3. - After March 18, 1970, the Communist Party of Kampuchea has developed very strongly among all the strata of people inside the country and abroad. As everyone knows it well,

the Communist Party of Kampuchea have always said right things and done right things too (justice of the Party).

4. - The soldiers of Lon Nol don't know now for whom and against whom they are fighting, and therefore they only know to oppress, exploit and extort money at will.

5. - The demonstrations of 26, 27 and 28 [document does not specify the month, probably March] are very successful and one can say there have been no such great demonstrations in history. This is due to the influence of Samdech Sihanouk among the gentle, poor compatriots.

- yesterday, only with empty hands the demonstrations have already scored brilliant successes
- now, with weapons in hand, we are certain to win
- the present government is but a one-side government (completely under the American imperialists)
- We are now on the road to victory (what we do in one month is equivalent to what others do in ten years).

E) Our hope

The American imperialists will cope with many difficulties and they can also cajole and exhort Lon Nol's soldiers to follow them. But with the skillful leadership of the Party in the people's guidance, with its military superiority and its plentiful rear base areas, we will be able to overcome every difficulty and challenge.

II. - Our common mission:

The people must be united closely in one bloc to knock down the American imperialists and their lackeys Lon Nol and Sirik Matak through political means and by the weapons so as to bring effectively independence, neutrality and happiness to our compatriots.

To attain this goal, our compatriots should comply with the appeal by Samdech Norodom Sihanouk.

- Long live Samdech-Ouv.
- We place our hope in Samdech-Ouv.

III. - Practical missions

1. - Consolidation of the Front
2. - Organization of armed forces in all the three classes of people.
3. - Pushing strongly forward the political and military action in order to attain more quickly the objective of overthrow of the present Lon Nol government, to seize power and to organize the people's ranks by drawing experience from the recent demonstrations.

IV. - Immediate tasks

- To push strongly forward the struggle movement among the masses by putting forth the past achievements of our people in the struggle against the French colonialists;

- To show clearly the important objectives of our organization so as to attract the people to participate in it in large numbers.

- In the past few years, living under a real neutralist regime our compatriots know perfectly who is loyal to the fatherland and who betrays it.

Following these lines of conduct, our compatriots should choose a "purely honest" man to rule the country, and they should eliminate any "dirty" element because this man is only interested in doing harm to everyone and everything.

- All the people are experienced in their challenge with the enemy, especially in the recent demonstrations which may help our compatriots see clearly the enemy's weakness and our strength.

The Front Committee at the hamlet-khum and the duties of the Front Committee

A. - Providing guidance to the compatriots so that they will be united into a sole bloc to rise up and overthrow the Lon Nol-Sirik Matak government.

B. - Organization:

- Exhorting all the people to join the Front.
- Exhorting the people to participate in the demonstrations (destroying the supplies and shouting aloud slogans against the Lon Nol clique and their lackeys.
- Giving assistance to the Front soldiers and their families. Presenting claims vis-a-vis the enemy soldiers.

Commander-in-Chief of the United Kampuchea
Front

I, Commander-in-Chief of the DOM-ME zone, am very happy to hear that you have prevented the soldiers from escaping so that they can stay on to serve our country. Now, I have received the news concerning the escape from the Front of a soldier named KHUON-REAM and his clique at the hamlet. I want to inform you that before these fellows escaped, I had written a letter to him. This letter was sent by his men. In the letter I told him to try to escape. Now he has escaped, and came back safely.

As Commander-in-Chief of the Front in the same army with you, please let all these men return to their former residence so they can spend their normal life as before.

AFFIDAVIT

I, Chairman of the Front at Pra-Theat Subzone, want to confirm that NEANG SAMIT, wife of soldier KHUON REAM in Mimot outpost, has called on me to ask for the permission to let her husband come back, because she has obtained from her husband KHUON REAM the confession that he has been misled and he is now determined to be loyal to the Front after rallying with all his men in carrying back their weapons with them. The Chairman of Thbong Khmum subzone has agreed to let Neang Samit to welcome her husband back. But bombs were dropped into Mimot on the very day when Neang Samit went. The Front was active along the road leading to Mimot and therefore nobody was allowed to enter the area to prevent eventual deaths to pedestrians. That is why she could not come to Mimot. Two days later, all the soldiers in Mimot fled away but we have been informed that KHUON REAM had been asked by the comrades of the Front to stay.

For this reason I want to confirm that KHUON REAM has been enlightened and agrees to come back to serve the Kampuchea United Front. He is a sincere man, and because he lives far away he has been unable to contact us in time thus causing some delay in his escape.

Relying on my above-mentioned statement, I request the Kampuchea United Front to provide assistance to KHUON REAM so he can rejoin his family at Pratheat hamlet.

Hereunder are the fingerprints of the inhabitants of this hamlet who agree to let KHUON REAM come back home, and the affidavit of the Chairman of the Front at the Khum.
