SUBJ: (C) Elements of the Border Defense Office, Political Staff Department, Headquarters, SVNLA.

(C) Items 1-2: (3 pages, handwritten; B-3) Letter with envelope, date 26 Mar 70, sent by Dân, Commander of Liên Đới 89 ((possibly border defense element of the Political Staff Department, Headquarters, SVNLA)) to the Command Committees of subordinate Đới's ((Security Units)) 1, 2, 4, and 5, reads in part as follows:

"Recently, our ((VC)) radio announced a declaration to support the Five-Point Solution presented by Sihanouk. The Units are to utilize the cited broadcast declaration to inform the K ((Cambodians)) people and the local ((K)) authorities that our relationship with the K remains unchanged."

"After the declaration of Sihanouk concerning the activation of a Front for National Reunification and Liberation of "K" ((Cambodia)), officials tried to contact us and request our assistance. They wanted us to bring a delegation of "K" ((Cambodians)) officials to Ha Noi to meet and receive instructions from the Chief of State. They also want ammunition and facilities to enable them to live in the forest. Regarding this point, we are to heighten our vigilance because it may or may not be true. The rightist element could only be pretending in order to collect information. You are to solve this problem ((by replying)) as follows: You, the Khmer people who want to side with Chief of State Sihanouk, must strengthen the consolidation between the army and the people and prepare a force to counter the elements which oppose the Chief of State."

"In regard to our Liberation Army, we always supported the policy of the Chief of State and will support the current struggles conducted by him and the Khmer people until they attain the final victory."
