General description:

Terrain characteristics of Huế City:

Huế City consists of the three following precincts:

Precinct 1: (inland of Huế Citadel).

Precinct 2: (on the left bank of the Hương River, Gia Hội area).

Precinct 3: (on the right bank of the Hương River).

Precinct 3 is a triangle with three summits located at Cầu Ga Bridge, Công Phát Lat Culvert, and Đập Đá ((Đam)). This precinct is south of the Hương River.

Population: Over 60,000 inhabitants.

Military and administrative installations:

a. Precinct 1: Headquarters, rear base, military security, and psywar-entertainment offices of the 1st ((RVNAF)) Division, the Nguyễn Tri Phương Hospital, etc ... ((sic)) are located in Mang Cá Lớn.

The prison for enemy deserters is situated in Mang Cá Nhỏ. It was rumored that friendly intermediate and captured high ranking cadre were imprisoned there.

Tây Lộc Airfield and Lê Văn Duyệt and Nguyễn Thanh Nga Camps are located in the area of Phung Hũng, Tầng Bạt Hồ, Lê Huân, and Triệu Quang Phục Streets. The Tầng Bạt Hồ Camp, a recruiting office of the 1st Division, is located on the Tầng Bạt Hồ Street. An enemy security company was previously located in Tầng Thỏ (there is now no current information on it).

b. Administrative installations:

The administrative office of Precinct 1 is located on the Đoàn Thị Điểm - Phung Hũng Three-Way Intersection, the Chiêu-Hội Station on Hùng Vương Street near Nguyễn Thanh Street, and the Court of Appeals near the Thượng Tử Gate.

The people must use the Thượng Tử and Đông Ba Gates to move in and out of ((Huế)) Citadel. The Thượng Tử Gate (entrance) is used for military vehicles and Đông Ba ((Gate)) is used for civilians. Enemy military police, and policemen and underground security members are deployed on and around both the gates.

c. Markets: There are three markets in ((Huế)) Citadel:

((Page 88 of Item 2 of O. T.))

Tây Lộc Market is located on Cường Để Street near the airfield.

Cầu Kho Market is located on Đinh Bộ Lĩnh Street near the Cổng Cầu Kho ((Culvert)).

Xếp Market is located near the Đồng Ba Gate.

Remarks: The ((RVN)) National Police Station is located behind the Tây Lộc Market; transportation in and out the citadel is by bus, three-wheeled "Lambretta", and pedicab on the Tây Lộc - Cầu Kho Way.

Precinct 2:

The administrative agency of this precinct and the Gia Hội National Police Station are located on Chi Lăng Street (which is a densely populated area). There are two movie theaters named Chân Tình and Lido.

Precinct 3: Lê Lai Camp is located on Nguyễn Huệ Street near Lô Ren Bridge, and the Phan Sào Nam Camp is on ((unspecified)).

Administrative agencies are as follows:

Office of the Thừa Thiên Province Chief.

Central Vietnam House of Representatives.

Post Office.

Treasury Service.

Interrogation Service.

Fishing Service.

National Construction Service.

Registration, Agricultural, and Irrigation Services ... etc ... ((sic))

Public Security and National Police Agencies:

Thừa Thiên Province National Police Service and Huế National Police Service.

((Page 89 of Item 2 of O.T.))

Off-limits areas: From Duy Tân Five-Way Intersection to Đông Đa, Phan Thanh Gian, and Lê Thanh Tôn Streets to the Duy Tân Three-Way Intersection and Lê Đình Duyệt Street. Off limits to civilians, because this is a US military area.

The area between Trần Hưng Đạo and Phan Bội Châu Streets and the Đông Ba Market are densely populated and mostly frequented by the people. The Đông Ba Police Service is located there.

Three bus stations:

The bus and three-wheeled "Lambretta" passenger station with transportation routes from An Cựu to Bến Ngủ, Cầu Kho, Tây Lôi, Báo Vinh Đình Market, An Hoà, Triệu Tây Kim Long and Tử Đám, etc ((sic)). (Each bus has a sign bearing its transportation route.)

Nguyễn Hoàng Bus Station with these transportation routes: Quảng Tri, Đông Hà, Uông Diễm, Mỹ Chánh, Phố Trạch, An Lộc, Sia, Thanh Lương, and Hương Cầu. In this station, there are also three-wheeled "Lambretta" passenger carriers going to La Chữ, An Lộc, Sia, Hương Cầu, Văn Xá, Triệu Sơn Tây, etc ... ((sic)).

The house numbered 55 is the City Council Office (a Secret Service Agency).

Going straight to Trần Hưng Đạo Street, opposite of Tràng Tiền Bridge (Nguyễn Hoàng), is the Thừa Thiên Information Service.

There is a theater (but it is no longer used).

There is a movie theater named Tân Tân.

The ticket office of the VIA AIR MAIL ((sic)) (VN Line Company) is located on Trần Hưng Đạo Street.

There are two hotels:

Toàn Lợi ((Hotel)), No. 63
Hương Bình ((Hotel)), No. 17 } on Trần Hưng Đạo Street.

Ferry landing areas where lodging is rented: There are three such areas:

1. Văn An Hội ((The ferry landing at)) Gia Hội River.
2. Văn Tường Tổ in Thượng Bào, on the opposite side of Thượng Tu Gate.

The inter-family chief in Văn An Hội is a policeman whose name is unknown. The inter-family chief in Văn Tường Tổ is a People's Self-Defense Force member named Hạnh.

3. The Phú Van Lâu Ferry Landing Site has a few boats and passengers.

At the Van An Hội ((Ferry Landing)) there are boats for rent from the Sơn Ca Ice-Cream plant to the Gia Hội Bridge.

At the Van Tường Tô ((Ferry Landing)), there are boats and lodgings for rent. When renting lodging, it is better to avoid those opposite the Thưởng Bặc Pavilion. In these two ferry landing sites, the population is relatively dense. Public security agents sometimes search for prostitutes. To rent lodging there, no papers need be shown. Occasionally, some boat owners may ask for papers (this happens very seldom).

We can tell boats for rent ((from private ones)) by their appearance, worn or old. But, usually, boat owners consult passengers on the river bank.

Price for lodging aboard boats:

Price: For one day and night, from 200 - 250 or 300\$ ((SVN)).

The highest price is from 300 to 400\$ ((SVN)).

How to rent a room in inns:

When arriving at an inn, ask for rooms. If there are any, ID cards must be shown to register. If all rooms are occupied; the owner will say when to return, inquiring whether a single or double room is required.

Before ((RVN agents)) come to search rooms, a waiter will knock on the doors of our rooms as a signal. Do not worry, if no one knocks on the door. Be wary of dishonest persons and women.

Price ((for renting a room)): 150\$ - 200\$, and the highest price is 300\$.

Double room: 300\$ - 400\$ or 500\$.

Price of tickets for buses, trains, and airplanes:

Airplane: Huế to Đà Nẵng: 280\$ ((SVN)).

Huế to Quảng Ngãi: 750\$ ((SVN)).

Huế to Quy Nhơn: 1,050\$ ((SVN)).

Huế to Nha Trang: 1,540\$ ((SVN)).

Train: Huế to Đà Nẵng: 60\$ to 80\$ ((SVN)).

Bus: Phi Long Bus Company and buses of VN Air Line Company, transport goods. When trains are used for this purpose, the price of a ticket is less than that for a bus. For instance: From Huế to Đà Nẵng previously cost 300\$, but has been reduced to 200\$. The prices of tickets of Phi Long and An Tĩnh Bus Companies were previously 250\$ ((SVN)), but have been reduced to 150\$ for transportation from Huế to Đà Nẵng.

Bus:

For short trips from Huế (Đông Ba) to An Cựu, Tú Đam, Long Tho, Kim Long, Bến Ngự and An Hòa, etc ... ((sic)) the bus fare is 10\$.

Pedicab:

Each fare is 80 to 100\$ for the trip from Đông Ba to An Cựu.

We should discuss the price with pedicab drivers in advance.

Như Ý Restaurant.

Most restaurants are located on Phan Bội Châu and Chi Lăng Streets.

Public parks:

Nguyễn Hoàng (Thượng Bạc).

Phu Văn Lâu.

Lam Sơn on Lê Lợi Street, opposite Đồng Khánh Quốc Khánh High School.

Within the area from Giã Ván Water Plant to Công Phát Lát ((Culvert)) on the other bank of the An Cựu River in Hương Thủy District, there are the following military agencies:

Lý Trần Quán Camp (Bồ Ghé) on the Huyền Trân Công Chúa Street near the Railway Station.

One Engineer D ((possibly battalion)) close to Đan Nam Giao ((Temple)).

Headquarters of the 7th Armored Regiment in Tam Thai.

Lê Lợi Camp, etc ... ((sic)).

Big station: Consists of AIRMAIL ((sic)) and US billets.

Most tyrants and ringleaders are concentrated in the area of Phú Cam Church and Phước Qua.

Tú Đam Pagoda allows travellers to stay overnight.

Parking areas:

Nguyễn Hoàng, An Cựu, and Bến Ngủ parking lots; railway station; touring car and bus parks. All are controlled by policemen.

The area from Nguyễn Hoàng parking lot to Tràng Tiền Bridge is under the control of various ((RVN)) elements including police, military police, field

((Page 92 of Item 2 of O.T.))

police, public security, and Chiêu Hồi personnel who wear civilian clothes and linger on the streets and in the shops.

((Huế)) Citadel entries and exits:

Thượng Tứ Gate.

Ngân Gate.

Đông Ba Gate.

(Vehicles frequently go in at the Thượng Tứ Gate and out at the Ngân Gate while pedestrians may enter or exit at either gate. All gates have check points.)

The Tràng Tiền Bridge is under repair, so traffic relies on Bạch Hổ and floating bridges. The enemy will destroy the Tràng Tiền Bridge after completing construction of another at Bến Tắm ((sic)) near Thượng Bắc Public Park. Civilian vehicles must use Bạch Hổ Bridge.

Request instructions on transporting rice and food from Chuc. Ask for call number to make contact with Comrades Đông or Chuc.

Personnel strength: 20 ((sic)).

Request for sugar and milk from Depot A for rations prior to the movement.

Five main missions of attacking the pacification plan:

1. Conduct military, political, and military proselyting attacks against the enemy.
2. Motivate the people to rise up to take power.
3. Strengthen in-place political and armed forces.
4. Attack the enemy in cities.
5. Attack the enemy in the rear base area and strengthen our base areas.

Comments:

Strengths:

Confusion and suffering from hunger are still prevalent. However, Phien, Duc, Thanh, and Vuông fulfilled their rice transportation task.

Comrade Thu confessed that his confusion was due to a lack of determination on the part of the Revolution.

Routes, bridges, and latrine pits are well-prepared, and messing and billeting activities were stabilized.

Weak points: Comrade Tam displayed bad conduct.

Newly ((recruited)) personnel (except Phuong) are not healthy and lack determination. Rice and clothing ((are not well maintained)). ((Personnel)) were not ideological indoctrinated.

Training for material:

In the ideological fields: individualism is still prevalent.

Cadre must learn from others' experiences.

Requirements:

Promote good attitudes toward the people.

Make substantial efforts in training and express opinions freely.

Strictly conduct self-critique sessions.

((Page 113 of Item 2 of O.T.))

Self-Critique:

Content:

Requirements:

On the basis of self-consciousness, use critique and self-critique sessions to review ((past activities)) to strengthen the ideological viewpoint.

Critique and self-critique sessions will help to review political activities.

Content:

To meet their political requirements, all Party members, cadre, and Chapter Party Committees must be responsible for the various tasks of their units. They must assess the specific situation of their units to consolidate their viewpoint.

Content:

((Strengthen)) the fighting spirit and class viewpoint in attacks against the enemy. Build up forces and units, conduct political and ideological training, and improve professional skills.

Display a good attitude and be responsible to the troops.

Place full confidence in the Party.

Strengthen the ((revolutionary)) viewpoint and attitude ((towards work)), and understand the periodic features on the basis of responsible awareness.

Self-Critique:

1. Determination to fight and attack the enemy:

Some achievements last year failed to meet prescribed requirements due to the following shortcomings:

Telecommunication (communication and telegraph)

((Page 114 of Item 2 of O.T.))

failed to fulfil its responsibility. The telegraph element achieved nothing. It is still confused and cannot overcome its difficulties. The communication element could only achieve small successes. As a result, communication routes were not developed.

Causes: The above shortcomings were caused by subjectivism; fear of the enemy, the fierceness of war, and difficulties; and shirking from duty. For example, personnel assigned to Vinh ((sic)) and N. Ngot Market ((sic)) left their trips unfinished and escaped to rear base areas in fear of enemy sweep operations.

Good examples were not displayed and a poor sense of responsibility is still prevalent.

Consequently, communication was not ensured and telecommunication requirements were not met.

2. Strengthening forces:

Emphasis was not placed on political and ideological reorientation and proper measures were not taken against rightism in struggles against the enemy. Licentious behavior, corruption, and waste still exist.

Cadre and reconnaissance and military proselyting agents were not well trained on how to perform their missions.

Subjectivism, perfunctory attitudes, a poor sense of responsibility toward lower levels, and control of documents are still evident. Negligence in the employment of personnel, individualism, and conceit are still prevalent.

((Page 115 of Item 2 of O.T.))

3. Attitude and responsibility toward soldiers: ((Cadre)) especially Vuong, ((one word illegible, possibly Trung)), and Phien have sometimes become disgruntled in their disagreements.

The ceremony in commemoration of the death of Heroes Giãm, Hã, Thanh, Cãn, Sau, Vui, and ((one word illegible, possibly Dũng)) was not organized.

4. Understanding Party tasks and sense of organization:

Difficulties were not overcome to ensure the performance of the Party caucuses and negligence in providing leadership still exists because of a reliance on subjective conditions and characteristics of tasks. Phũc and Quy were negligent in overcoming difficulties because of rightism, passivism, and unjustness. This caused them to fail to correct their shortcomings.

Promote the sense of solidarity of Comrades Quy and Thũong in the interest of the Gum. Discuss the problem concerning Comrade Quang. Promote solidarity in Comrade Quy.

((Page 116 of Item 2 of O.T.))

TRAINING ON SPECIALIZED TASKS:

1. Strengthening of areas of operation and exit points:

Strengths:

Missions: First of all, define the terrain on a map and take advantage of the information provided by local areas or the cadre familiar with the terrain to investigate the situation (of the area of operation).

Afterward, reconnoiter the terrain.

Preliminary conclusion:

We can operate under legal status in disputed areas frequented by the people.

The circulation in these areas is favorable because they are near lines of communication. Contacts are easily made from disputed areas to cities.

Enemy activities are weak ((in these areas)). The people's organizations are basically good. We are capable of motivating them.

2. In short, it is easy for us to develop our forces in these areas.

3. Selection of areas of operation:

Investigation of the people's situation: Sister Ph ((sic)) is responsible for political activities and contacts with friendly ((VC agents)) in cities.

Can we insure secrecy for our agents' houses?

What measures will we take to win the sympathy ((of the people)).

How do we use our form of operation? (Part concerning concealment.)

Result: There were three families including one official and one probationary ((revolutionary)) and one in charge of following enemy activities. ((sic)).

Assessment of the situation: Concentrate efforts to overrun enemy positions.

Fully understand friendly and enemy areas of operation.

Select main and secondary routes of movement.

Weak points: Lack of urgent actions and fear of difficulties still exist. Transportation of goods were well camouflaged, but coordination was not good because it was guided by relatives of friendly ((VC)) personnel ((sic)).

((Page 117 of Item 2 of O.T.))

Ngô ((Gateway)) 1285 (direct). After infiltrating ((the area of operation)), directly participate in the activation ((of the gateway)).

After terrain reconnaissance, we learned that it was only difficult for our movement from our rear base area to ((one word illegible, possibly district)) (according to a preliminary report).

Prepare a separate route and use guerrilla forces.

For camouflaged transportation of goods, prepare concealment (Cuối, Khuông, X, ((and one word illegible, possibly Khe))). Agents should be assigned to follow up ((activities)).

Conclusion: The area of operation should be determined.

Use three males and one female ((agent)). Many different forms ((of receiving cadre)) should be used.

Male: Move from the rear base area to hamlets and rest there. Afterward, move from hamlets to the assembly area.

The time for movement is from 0300 hours to 0430 hours.

After a 30-minute rest, move to the departure point.

Withdraw after 0500 hours.

Cadre should move from 0530 to 0600 hours.

Female: Depart from the rear area.

Organization of a reception ((of cadre)). Based on prescribed missions to prepare for:

1. Food for nourishment.
2. Investigation of the area of operation.
3. Reception of cadre to "Cum" and elements.
4. Work with cadre:

Assign tasks in preparation for the movement.

Report the situation of the area of operation and the gateway.

Make plans for receiving cadre.

Calculate time for operation.

((Page 118 of Item 2 of O.T.))

Assign personnel in charge of leading and receiving ((cadre and agents)).

Review all actions before departure.

Be familiar with secret or identification signs.

Secret or identification signs.

Anticipation of difficulties.

Check of identity papers, money, and personal belongings.

Plans of purchasing and selling.

Ideological and political tasks.

Be careful in conversation during the movement.

II. PRACTICE:

Determine the time.

Assign missions; make personnel aware of warnings.

Make arrangements to review the situation upon return.

III. UPON RETURN: Review activities to gain experiences.

Ensure the security and secrecy ((of the movement)).

This should be done specifically, carefully, and accurately.

The review should be conducted regularly and in length.

((Page 119 of Item 2 of O.T.))

The meeting should not be delayed.

Dress should be convenient, according to regulations.

Clearly understand the travel costs by car or train.

Be aware of pick-pockets. Maintain individual papers.

Preserve health.

Ideological mission: Persons who did not accomplish their missions cannot be assigned this mission.

Concerning the area of operation and method of preserving secrecy in conversation, ((we should pay attention to:))

Location.

Time.

Identification.

Action.

Password.

Signal (warning).

Story to camouflage the missions:

Regular method.

Predetermined method.

Main and secondary regulations.

How to determine regulations?

The method of using the regulations:

The task of determining regulations was performed well, but the use of these regulations was not proper.

Secrecy maintenance.

Results obtained from the study of missions:

Be determined.

Fully understand methods and steps to implement missions.

Have a specific and attentive attitude towards the work.

Be patient and laborious.

The enemy understood our working procedures. Therefore, he was able to discover our plans and prevent us from fulfilling them. As a result, when we step up activities, we will certainly meet many difficulties.

((Page 120 of Item 2 of O.T.))

ESPIONAGE TASKS:

1. Employment of PW's and ralliers: (Attention should be paid to those ((RVNAF troops)) who were persuaded to desert their units to side with us.)

The selection of objectives should be based on ((two principles)):

The persons to be selected should meet all requirements and know how to preserve **secrecy**.

They should be high-level officers, from captain up, who were formerly responsible for important missions.

The recruitment is comprised of:

Investigation of their personal history and their past and present activities.

Investigation of their political attitude when arrested.

Their capabilities in collecting information.

Recruiting method:

Indoctrinate them ((meaning those to be recruited)) and make **sure** of their political awareness.

Use oppression to win them.

Indoctrinate and oppress them.

Forms to be used: They should be thoroughly screened. We should pay attention to the people's psychology which is entrenched in formalism and ascendancy.

In brief, the actions to be fulfilled are :

Arrange the meeting.

Investigate the attitude ((of the persons to be recruited)).

Make them realize our plan.

Fully understand the important problems.

Arrange release methods.

Missions to be accomplished with Comrade Quang:

1. Assignment and organization of cells and "Cum".

Mũi PD. ((Phong Điền or Mũi 1)) must seek support from Đoàn 6 ((aka the 6th NVA Regiment)).

In the beginning, "Cum" should rely on the support of Đoàn 6. Later, when the agents are capable ((of fulfilling their tasks)), there will be a change.

"Mũi" 1 ((would be assigned)) to An-Sơn.

"Mũi" 2 to Trường Thọ.
