NIXON'S CAMBODIAN INVASION LEAVES HIM VANQUISHED LIAR

[Station article: "Nixon Is Vanquished and a Liar"]

[Text] Recently, the French paper "NOUVEL OBSERVATEUR" published an article saying that in 30 June 1970 Nixon would be either a vanquished man or a liar. Actually he is vanquished and a liar. This assertion concerns the U.S. aggressors' armed invasion of Cambodia.

Let us study this from the outset. To carry out his aggressive design, ringleader Nixon has given a helping hand to the Lon Nol lackey clique in staging the dethroning coup d'etat on 18 March 1970. This impotent lackey clique staged a bad coup d'etat and has thus kindled the struggle flame of the Patriotic Cambodian Armed Forces and people. The Lon Nol-Sirik Matak clique is facing the danger of being burned by this struggle flame. In order to save this clique, Nixon immediately poured nearly 100,000 U.S.-puppet troops into Cambodia to brazenly pillage it.

Nixon stained U.S. History by justifying, on television, the sending of U.S. expeditionary troops to invade a nation whose whole population equals only one-thirtieth of the U.S. population. Since then, nearly 100,000 U.S.-puppet troops launched more than 20 piratical operations of medium or large scale in an area almost 1000 square kilometers, from the northern part of Ratanakiri Province to the southeastern part of Takeo Province, in an attempt to smother the struggle flame of the patriotic Cambodian people.

His illusion about victory was so fantastic that Nixon personally went to the Pentagon to direct military operations in an effort to carry out this aggressive plan. But all his hopes have been frustrated. Under the clear-sighted leadership of Samdech Chief of State Norodom Sihanouk and the FUNK, the Khmer people have rapidly united, regimented themselves, attacked vigorously, and fiercely struggled against the Americans and their lackeys through inspiring and greatly effective forms.

The patriotic Cambodian armed combatants, who have matured and developed by leaps and bounds, have violently attacked the Lon Nol regime. The flame of armed struggle has spread over 15 of the 20 provinces and in cities in Cambodia. In the past 90 days, the patriotic Cambodian people completely liberated the four provincial capitals of Ratanakiri, Stung Treng, Kratie and Mondulakiri and liberated the greater parts of the six provinces of Kompong Cham, Prey Veng, Svay Rieng, Takeo, Kampot and Kandal.
