NCNA REPORTS ON SIHANOUK'S 7 MARCH WARNING TO U.S.

Peking NCNA in English 2023 GMT 7 Mar 75 OW

[Text] Peking, March 7, 1975 (HSINHUA)--Samdech Norodom Sihanouk, head of state of Cambodia and chairman of the National United Front of Cambodian, in a statement today appeals to the governments of all countries and people who cherish peace and justice, to demand that the United States end its interference in Cambodia.

The statement says: The United States is escalating and will escalate dangerously and successively its war of aggression, of neo-colonization and of genocide in Cambodia; it is carrying on an intensive and colossal "airlift" of the "Berlin type", delivering several hundred tons of new weapons and munitions to Phnom Penh every day; the United States will give another sum of military aid to the Lon Nol clique in April or May this year; U.S. warships are sent in the territorial waters of Cambodia, carrying on board infantrymen, paratroops and the Marine Corps who are ready, under the pretext of the necessity to protect the lives and security of the U.S. colonialists in Phnom Penh, to intervene in Phnom Penh and Pochentong against the Cambodian People's National Liberation Armed Forces; and in South Vietnam, they are stepping up the training of the Saigon commandos of the Nguyen Van Thieu army in street fighting, and these commandos will go to Phnom Penh in the near future by U.S. order, to support the doomed Lon Nolite troops.

The statement says: "In face of this new and serious threat to the peace of Southeast Asia and the world, I appeal to all governments and people who cherish justice, freedom and peace, to urgently demand that the United States put an end at once to all its criminal war escalations against Cambodia, stop immediately all its illegal and immoral interference in the affairs of the Cambodian people and nation, and accept finally letting the Cambodian people themselves to solve all their problems".

The statement appeals to all the governments in the world to pay great attention to the U.S. manoeuvre of ceaselessly inviting the National United Front of Cambodia, the Royal Government of National Union of Cambodia and the Cambodian People's National Liberation Armed Forces to "negotiate" with the Lon Nol clique. "The Lon Nol clique is only a soulless puppet of the U.S. imperialists. The 'Cambodian problem' is not a problem between the Cambodians. It is a problem between the aggressed Cambodian people and the U.S. aggressors", says the statement.

In conclusion the statement says: "The United States must cease its aggression! The so-called 'Cambodian' problem will be solved by the fact itself." [as received]
