PRINCE SIHANOUK ACCUSED THE U.S. OF PROTECTING  
THE REACTIONARY CLIQUE "KHMER SEREI" IN  
ACTIVITY IN SOUTH-VIETNAM

On November 5, Radio Phnom-Penh broadcast the statement of Prince Sihanouk, Chief of State of Cambodia, denouncing that the "Khmer Serei" clique continues to carry out their anti-Cambodian activities in South Vietnam after Ngo-dinh-Diem has been overthrown.

Prince Sihanouk pointed out that : After the Diem clique has been overthrown, the activities of the "Khmer Serei" clique become stronger in South-Vietnam. Their radio-broadcasting station defamed and slandered the Cambodian chief of State and Cambodia with base words.

According to Prince Sihanouk, that fact is not surprising because the new authorities in South Vietnam "continue to struggle against communism, regardless of the sufferings of the people, and stubbornly oppose the policy of neutrality."

Prince Sihanouk asserted that the U.S. imperialists have protected the reactionary clique "Khmer Serei" in activity in South-Vietnam.
