# SIHANOUK SENDS SIXTH MESSAGE TO CAMBODIAN PEOPLE

Hanoi VNA International Service in English 1628 GMT 3 Jun 70 B

[Text] Hanoi VNA June 3--Following is the 6th message of Samdech Head of State Norodom Sihanouk to the Khmer people issued here today during his visit to the DRVN.

At present, events in Cambodia and Indochina have finally "drawn" a very clear "demarcation" line which separates definitively the peoples who are invariably attached to their fatherland, their independence and their freedom from those Indochinese who betray Indochina, those Asians who betray Asia, delivering their countries to American neo-colonialist imperialism. Relying on its riches and material strength, this neo-colonialist imperialism has invaded many people, many countries in Asia, Africa, Latin America which it has turned into its satellites, war bases and "spheres" for economic exploitation.

Wherever it goes, U.S. imperialism sows discord and disunion among the nations, insecurity, war, disasters and misery. It turns the national independence and liberty of others into slavery... It is because of this imperialism and its henchmen, the Lon Nol-Sirik Matak clique, who have sold themselves to the Yankee tycoons, that since the March 18 coup d'etat in Phnom Penh, our beloved motherland has lost everything: her independence, neutrality, liberty, peace, unity, national union, progress in national construction, and territorial integrity that you yourselves, dear compatriots, and I have together succeeded in achieving and safeguarding during the past 15 years.

Today our Cambodia has become a real hell! Our patriotic people who refuse to bow to the American imperialists, and do not let the Lon Nol-Sirik Matak and Son Ngoc Thanh clique sell out the national independence, national neutrality and territorial of our country to the Yankees, to the pro-U.S. Saigon and Bangkok puppets, have risen up to take arms and fight resolutely against the traitors and their foreign bosses.
